PLEASE DON'T FEED THE ANIMALS

Are deer or wildlife a problem in your neighbourhood?

Does your neighbour feed or attract wildlife?

You may want to share the following

The District of Invermere is considering a bylaw to prohibit the feeding of deer and control of wildlife attractants within the municipality.

Attractants are not limited to food products, pet food, feed, compost, grain, salt or any substance that attracts wildlife.

The bylaw will prohibit anyone from providing deer with food or food sources. Please ensure birdfeeders are not accessible by deer and fruit is picked from the trees when ripe.

In order to stop wildlife from accessing garbage, you will be required to place your garbage in the following:

- A building that is not accessible to wildlife;
- A wildlife resistant container;
- A wildlife resistant enclosure; or
- Deposited at an appropriate disposal site.

Garbage and recycling cannot be placed for curbside pick-up prior to 8:00am on the day of the scheduled pick up.

The District may issue fines for a contravention of the bylaw.

For a copy of this bylaw or for more information please contact the District of Invermere office.
